Design is intelligence made visible. Behind every design, there is an even more interesting story. Virgo PVC laminates help you fill the colours of excitement to your design story! Choose from a wide variety of designs based on textures, colours and patterns & let your perspectives reflect your design.

Our Surface PVC collection features PVC, HPL & ACP laminates. Blending the different design philosophies aligned and in tune with the global trends; our designs are always updated. Our years of experience & expertise in laminates enables us to proactively gauge the needs of the industry. We consistently innovate and create designs at scale which direct the design trends.

Crafted in consultation with designers, architects and the finest craftsmen in the trade; our laminates are best known for their impeccable quality & aesthetics. So, when you choose our laminates, it means you are putting your trust in one of the finest quality products in the segment.

TRANSFORMING SPACES WITH OUR UNDERSTANDING & EXPERTISE OF THE DESIGN AND AESTHETICS

A BLEND OF CONTEMPORARY & MODERN DESIGNS, FOR ENCHANTING SPACES THAT TELL A STORY!

VIRGO[®] PVC LAMINATES

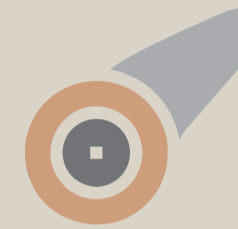

90° Bending Process / Steps

Laminates made with matching layers of colors throughout are called color core laminates. These laminate sheets are mostly used to eliminate the dark seams, which appear on the edges & joints of regular laminates. Color core laminates are known for the consistent, edgeless, and seamless look they give to furniture. Our color core range is available in Glossy and Matt finishes with a wide range of vibrant color options to choose from.

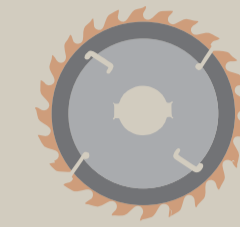

VIRGO[®] PVC
LAMINATES

DIAMOND CUTTER BLADE

For cutting, routing and drilling, we only recommend using a diamond cutter blade. To avoid any burrs during cutting ensure all the blades are sharp. A smooth file can be used to feather all the corner edges.

CIRCULAR SAW BLADE

A 4"x8mm x 6 Tee Radius C – groove blade should be used for bending Virgo PVC laminates. The recommended groove depth is 0.8 mm & width 5 mm or more. Routed sheet will easily bend up to 90°.

Disclosure - Sample Thickness

Laminates made with matching layers of colors throughout are called color core laminates. These laminate sheets are mostly used to eliminate the dark seams, which appear on the edges & joints of regular laminates.

ADVANTAGES WITH VIRGO PVC

Laminates made with matching layers of colors throughout are called color core laminates. These laminate sheets are mostly used to eliminate the dark seams, which appear on the edges & joints of regular laminates. Color core laminates are known for the consistent, edgeless, and seamless look they give to furniture. Our color core range is available in Glossy and Matt finishes with a wide range of vibrant color options to choose from.

CARE AND MAINTANANCE

As aforementioned, PVC laminates are easy to clean and maintain. But for a healthy and longer life of the laminate, you need to follow the basic dos and don'ts during its maintenance.

DOs

- Always prefer diluted mild liquid detergent or organic cleansers for cleaning
- Use soft damp clothes for wiping
- Wipe off the spills immediately, if they happen.
- Treat any difficult stains with a mixture of water and baking soda
- Dry clean the surface after cleaning to prevent marks or spots

DON'Ts

- Avoid cleaning agents containing acids or any harsh chemicals
- Avoid cleaners that leave behind a soapy residue
- Avoid excessive scrubbing as it can damage the surface
- Avoid abrasive cleaning tools like steel scrubbers, knives or any sharp objects, as they can leave scratch marks on the laminate surface

BRANDS BY VIRGO GROUP

TECHNICAL SPECIFICATIONS

- THICKNESS:** 1,2 MM , +- 10% Standard
- SHEET SIZE:** 1220 MM X 2440 MM (Standard)
- SIZE OPTIONS:** Length: Any [On Request] Width: Up to 1220 mm
- RANGE:** Our PVC Laminates are available in a variety on range. Customized sizes & shades can be developed on request.
- ADHESIVE:** These laminates are easy to apply with the standard laminating system, including most of the conventional adhesive normally used with plastic laminates such as many water based and solvent based. We do not recommend the use of heat activated adhesives.
- LAMINATES:** Proper substrates must be used and careful bonding procedure must be observed. Substrates should be of good quality of plywood, high density practical board, high quality fiber board or PVC board. The face of substrates must be smooth or free of grease, wax, dust, chips and other foreign matter.
We do not recommend use of PU base, melamine, lamination (wax) on our laminates. the application of these will spoil the originality and natural beauty of High Gloss PVC Flexible Sheets.
- CUTTING & INSTALLATION :** These High Gloss PVC Flexible Sheets can be cut, routed and drilled with most standard wood working too, or equipments. All blades must be Sharp to remove any burrs that may occur in the cutting process. We recommend the use of a leather to smooth all corner edges.
- BENDING & FORMING :** These laminates can be bent and all radius bending should be handled in the same manner as all grades of non post forming decorative laminates. Use only V- Groove cutter to bend the sheets at 90 degree. In case of any difficulty please contact us.
- MAINTANANCE :** Any cleaning agent containing acids, alkalis or abrasive should not be used to clean the High Gloss Flexible Sheets. We recommend to use only clean water for cleaning of sheets.

NOTE: Virgo warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In any case of claim, the liability of the company is only limited to the cost of the product only. This may be color variations from batch to batch. Please ensure the shades and match with old sheet before ordering or cutting the material. The sample swatches in the catalogue represent the design, colours and ruches. They do not present at the Actual sheets.
