SPECIALTY LAMINATES

CELSUS

Anti-fingerprint (AFP) HPL

In 2008, we launched CELSUS, the world's first decorative panel featuring Anti-fingerprint (AFP) capabilities. (According to our research)

AICA's proprietary technology successfully keeps fingerprints from being visible on HPL and, in addition, allows for reduced HPL surface reflectance while creating vivid colors and patterns.

Touch and feel the difference!

CELSUS

Anti-Fingerprint (AFP)

CELSUS

CONVENTIONAL

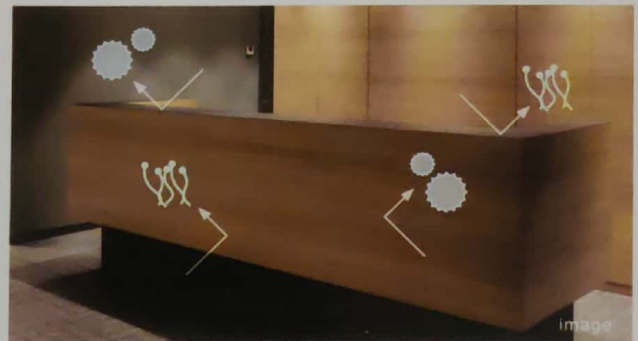

Antivirus

Supports creating a clean space with antivirus specifications as per ISO 21702:2019.

Antibacterial

Supports creating a clean space with antibacterial specifications as per JIS Z2801:2010.

Antifungal

Supports creating a clean space with antifungal specifications as per ASTM G21.

Refer to TDS for the above details.

Low reflection

A calm texture that suppresses light reflection. Not only design but also cost performance is compatible.

CELSUS

material award

2011

Highly acclaimed for its performance, AICA's "Celsus" won the IF Design Award 2011 and the Good Design Award 2010.

IF Design Awards

The IF design awards are internationally prestigious product design awards organized by the International Forum Design (Hannover, Germany). Winning products have been highly acclaimed for their world-recognized design.

Good Design Awards

The "Good Design Awards (G Mark)" are a comprehensive program for the evaluation and encouragement of design organized by the Japan Industrial Design Promotion Organization.
