DELTA

LAMINATES

Established in 2000, Delta Laminates has risen highly in the Indian Panel Industry to become a leader in the decorative laminates category. Delta has created a niche for itself backed by innovative, high-quality and customer-centric product range and service. This approach of always delivering the best is based on the foundation of an incredible infrastructure, which starts with our state-of-the-art manufacturing plant located in Santej, Gujarat.

There have been no stones left unturned to make the plant an advanced facility for manufacturing laminates. From 3000 sheets per day, we have increased our production to 20,000 sheets per day currently, thanks to our 7 presses, thermic fluid boilers, superior line handling systems, and premier precision handling impregnators.

While we have openly embraced the technological advancements in the production process, credit is due to our experienced Production and Quality team consisting of over 250 personnel. Their competence and skill in production ensure that Delta Laminates upholds the highest standards of quality.

In addition, we haven't restricted our laminates to the domestic market. We have let our laminates spread their wings to reach different corners of the world. At present, we have a prominent presence in UAE, Singapore, Malaysia, China, and several European countries. Our highly durable, hygienic, strong, and easy to maintain laminates have become quite a hit in these foreign markets and we plan to spread our magic in more countries very soon.

Give your space a touch of panache style with great decor ideas.

DELTA

ABOUT US

SPECIFICATION

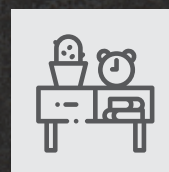

Product : High Pressure
Decorative Laminated
sheets
Size : 1220X2440 MM.
Thickness : 1.0 MM.

Resistance

To Surface Wear, Immersion in boiling Water, Direct impact by small diameter ball, Cigarette burns, Staining, Scratches, Color change in Xenon Arc Light.

Maintenance

Clean with Mild Soap Solution or House-hold Detergent. Abrasive Cleaners should not be used. Pearl Colors are recommended for Vertical use only. Avoid Direct Sunlight.

High end demeanor and eclectic designs are part of this marvelous range.
