EXCLUSIVE

ANTIBACTERIAL

Antibacterial, germ resistant and contagion free. Stylam products are designed to keep you safe and sound and your environment resplendent with unique, breathtaking textures and patterns from a vast range of superior laminates.

NATURE IS

THE INSPIRATION

FOR ALL

ORNAMENTATION

Frank Lloyd Wright

Architect

NATURE ABOUNDS IN DESIGN. FROM THE SHAPE OF STARFISHES TO THE GROOVES IN THE TREE TRUNK, NATURE IS A TREASURY OF PATTERNS. SHAPES, DESIGNS AND WE ALL REVEL IN THESE BOUNTIES. THE PATTERNS ON A BEETLE AND THE COLORS OF THE FLOWERS, THE UNDULATIONS OF RAVINES TO THE INTRICACIES OF A ROCK, DESIGN INSPIRES US IN EVERY SPHERE OF OUR LIFE. URGING US TO TAKE THEM INTO OUR EVERYDAY ROUTINES, **SPACE AND HOMES,** CONTINUOUSLY CHEERING US ON IN EVERY SPHERE.

WORLD OF DESIGN

STYLAM PRODUCES A WORLD OF DESIGNS, TEXTURES, PATTERNS IN LAMINATES THAT BRING TO THE FOREFRONT - BEAUTY, AESTHETICS AND CHARM - OF PIECES OF FURNITURE, WALLS, CABINETS, DOORS AND LIVING SPACES. THIS ELEGANT YET THOUGHTFULLY SOUGHT COLLECTION BRINGS TO YOU THE CHOICEST OF LAMINATES FROM AROUND THE WORLD, RIGHT HERE AT YOUR DOORSTEP. CHOOSE FROM THIS VAST ARRAY AND TAKE HOME A WORLD OF DESIGN.

WORLD OF
STYLAM

PRODUCT PORTFOLIO

We offer the widest selection of patterns and finishes available to match the breadth of your imagination and make your design unique.

Granex SOLID SURFACES

Granex Solid Surface by Stylam

Engrave it. color it. Thermoform it. Granex can be whatever you imagine it can be. Undulating, virtually seamless, organic shapes, bold effect of color and translucency - if you can dream it, you can create it with Granex Acrylic Solid surface. A brand new addition in Stylam house.

MAGNETIC LAMINATES

Magnetic Collection, from the House of Stylam, is the high-tech hybrid of industrial flair and sophisticated design. Widely used for vertical applications and as an accent to counter-top, the decorative metal line is a virtually unbreakable addition to any commercial project.

DiGi delight DIGITAL LAMINATES

Digital Laminates are an easy, simple and reliable mode of artistic expression which offer architect & designers scope of imagination to something that you see, touch & feel, this is what sums up intention of Digital Laminates.

UNICORE LAMINATES

Unicore Laminates are a unique combination of identical colours with core layered decorative surface. Tastefully selected decorative papers for surface layers are infused with treated melamine resins. Same decorative papers are used as core layers that are infused with specially treated Amino resins.

Marvella. MODIFIED SOLID SURFACES

Marvella, the marvel of a product Modified Solid Surfaces work with a wide range of other materials like metal, wood, glass, or natural stone. With a stable base, Marvella creates a surface that is the same from top to bottom. Furthermore, they fit seamlessly with each other, thanks to their special surface matching glue.

cuboid CUBICLES & LOCKERS

Restroom Cubicles & Locker CUBOID - a modular restroom and locker cubical system. Cuboid range from Stylam is crafted using the finest material and highest quality fixture and fitting especially for heavy traffic areas where functionality and durability matters the most.

FASCIA EXTERIOR CLADDING

From inspiration to application, each and every aspect of "exterior designing" is different. While weather plays a crucial role, it is also aesthetic that drives the concept. Fascia Exterior Cladding has been conceived keeping all the aspect into consideration.

FIRE RETARDANT LAMINATES

Fire Retardant Exterior Laminates panels have extreme fire retardant quality which makes them difficult to ignite and have low spread of flame. The evacuating time in case of fire is therefore prolonged

SMART BOARD WHITE CHALK BOARD

Stylam Chalk/Marker Board are made with special type of synthetic polymer which imparts durability to surface with easy cleaning of dry erase markers or wet erase markers.

FLICKER LAMINATES

Stylam Flicker Laminates are a unique & stylish range when it comes to variety of laminates. The attention they demand is instant and there is no question about the premium outlook it gives.

STYLAM SYNCHRO LAMINATES

Stylam Synchro Laminates has real feel of wood and elegant natural look. Other decorative laminate base paper pattern is not in matching with surface texture of decorative design, but to provide real natural feel to your interiors one need both laminate design & texture to be synchronized with each other, here comes the Stylam range of Synchro Laminates.

MIRROR SHIELD LAMINATES

The mirror laminates. Manufactured using real Aluminium, Stainless Steel and copper foils backed by Phenolic resins impregnated Kraft paper giving a semi rigid sheet for easy fabrication.

A touch won't raise eyebrows anymore. The truth is, you touch & you leave your trace behind. Not anymore with Stylam Anti-Finger Print Laminates. It is a type of High Pressure Laminate that is used in the most demanding interior design application.

Stylam gives much importance towards the right combination of resins, chemical additives, curing time & temperature, decorative paper, abrasion resistance overlay & high-quality steel press plates to give high gloss level to the laminates sheet.

Prelam boards are MDF boards that have a decorative laminate surface attached to it. Adding such a decorative laminate over the board surface greatly increases its aesthetic value by making it look more attractive for the end-customer.

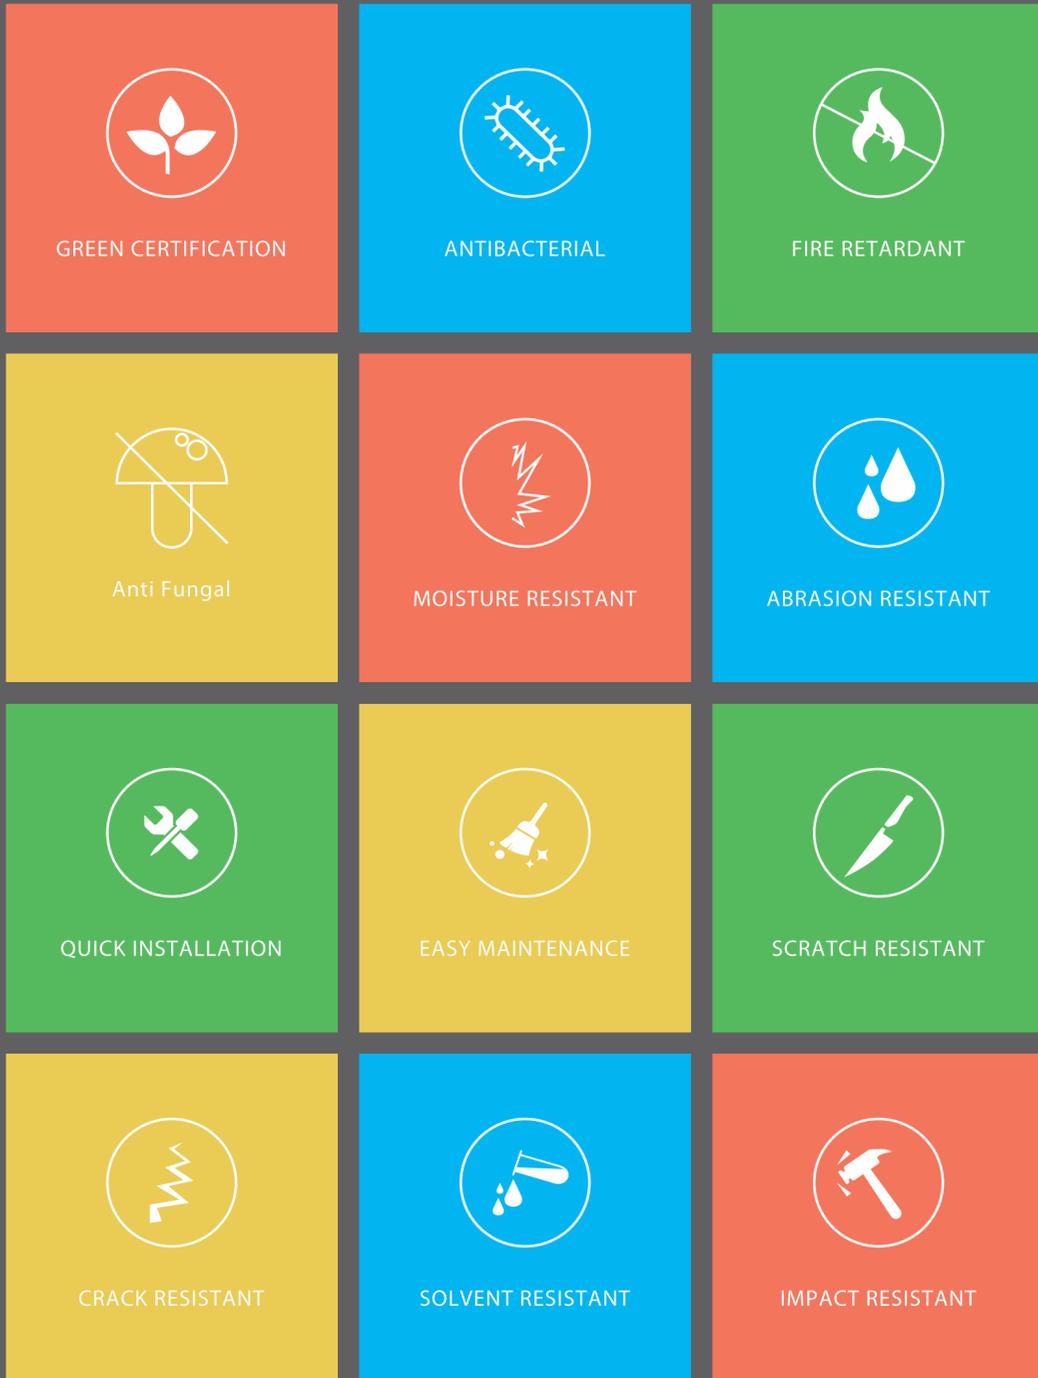

With excellent AB & AF properties, +Plus Guard Stylam panel will meet the demands in areas where chemical & water are used more and where contamination is a genuine threat.

POSTFORMING LAMINATES

Stylam post forming laminate range has been exclusively designed for usage on vertical and horizontal interior surface, where the laminate is required to roll in a simple radius over the edges of substrate.

COMPACT LAMINATES

Stylam Compact Laminates Panels are available in the options of all Brown core, all Black core and sandwiched design core.

LAB MATE

With excellent AB & AF properties, +Plus Guard Stylam Compact Panels will meet the demands in areas where chemicals and water are used more and where contamination is a genuine threat. A very special acrylic resin formulation is applied over decorative surface paper to achieve highest degree of chemical resistance together with a maximum scratch resistance. The decorative paper is impregnated with several acrylic coating to make the surface free from any porosity and then hardened by electron beam curing. The impregnated decor paper then is assembled with several layers of Phenolic resin treated kraft paper and pressed under 90Kg/sq cm specific pressure and at about 150°C temperature for about 30 to 40 min.

*Plus Guard Stylam Laminate is resistant to large number of relatively strong chemicals used in a laboratory making it ideal to be used in Chemical, Analytical, micro-biological, health care, pharmaceuticals & educational laboratories. +Plus Guard Stylam Laminate provides a highly durable surface in lab conditions and has better abrasion & scratch resistance.

Applications

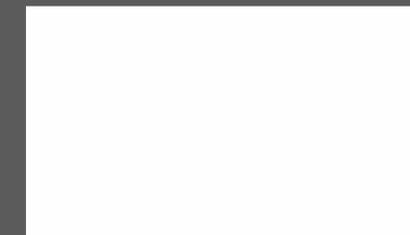

- Kitchen Sinks • Wall panels • Science Labs
- Table Counters • Lab benches • Space Research Labs
- Wardrobes • Clinics Furniture • Operational Rooms
- Cabinets • Photographic Labs • Chemical Industry

Sheet Sizes: 1550 X 3660 mm

Thickness: 1mm and above as per standard grade

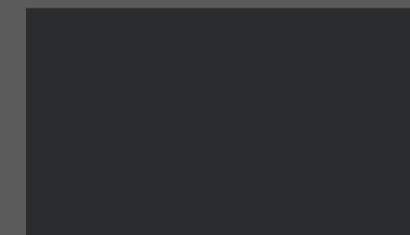

Lab White CR 0043 / S2

Lab Grey CR 0044 / S2

Lab Black CR 0042 / S2

FIRE RETARDANT LAMINATES

Stylam Fire Retardant Laminates are manufactured by impregnating papers with special phenolic resin having imported fire retardant chemicals in its composition. This special resin formula ensures high resistance to the flame propagation. These Laminates ensure immediate full extinguish as soon as the flame source is removed thus eliminating the risk of toxic smoke. Stylam Fire Retardant Laminates have been certified conforming to Euroclass-B requirement by Applus Laboratory, Spain. These laminates are designed for use requiring flame and smoke resistance in all modern day furniture and industrial applications.

Application

- Fire Prone Areas • Kitchens • Cabinets • Interior Doors • Wall Panels
- Airports • Hotels • Office Buildings • Shopping Malls • Multiplexes
- Hospitals • Schools • Apartments

Fabrication

- **SAWING:** To avoid chipping, it is important that the saw blade teeth cut into the decorative face.
- **CIRCULAR SAWING:** To avoid vibration that causes chipping, make sure to provide support to the material near the point of blade contact.
- **ROUTING:** Electric or air powered carbide tip routers could be used for routing. Recommended router speed is 16000 to 22000 rpm. For special edge trimming very high speed routers should be used to achieve smooth-edge chip-free work.
- **EDGE FINISHING:** Belt sanders may be used to push the self-edge before the laminate top is applied.
- **ADHESIVES:** Special Post Forming Adhesive is recommended.
- **PROTECTIVE FILM:** The protective film should be removed as soon as the application is complete. Else exposure to strong lights may cause a pale residue and make it difficult to remove the protective film.

ELECTROSTATIC DISSIPATIVE LAMINATES

Electrostatic Dissipative laminates (ESD) diffuse static electricity to protect electronics and other static-sensitive devices from electric charges that could cause damage during manufacturing or assembly.

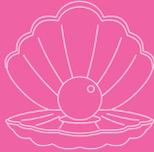

Application:

- Static-Sensitive Electronic Components
Manufacturing Workstations • Hospitals
- Medical Facilities • Technical Departments/
BPO Offices • Science Laboratories
- Mobile Manufacturing Units
- Pharma Labs • Electronic Units

Features:

- Low electrical resistance
- Absolute charge drainage and zero voltage suppression
- ESD is post formable but will require a larger radius than standard laminate
- Resistant to most common solvents, hot solder and fluxes.
- ESD is guaranteed to maintain its static control properties.

Sheet Sizes: 1220 X 2440 mm, 1300 X 3050 mm
Available in any colour depending upon quantity

CERTIFICATIONS

IN 29 YEARS, WE HAVE ACHIEVED WHAT ONLY A FEW DREAM OF. TRUTH IS, WE JUST KEEP ON GOING WITH WHAT WE HAVE DECIDED. AND THEN EVERYTHING ELSE... JUST FOLLOWS. THE ISO 9001:2015 CERTIFICATION IS A HALLMARK OF INTEGRITY, QUALITY AND RELIABILITY. THE DESIGN AND EFFICIENCY OF THE LAMINATES HAVE EARNED US THE CE MARKING AWARD. STYLAM TAKES PRIDE IN BEING RECOGNIZED AS AN EXPORT HOUSE BY THE GOVERNMENT OF INDIA. WE MEET ALL QUALITY, SAFETY, GREEN STANDARD AND OPERATE AS RESPONSIBLE CORPORATE CITIZEN.

CARE & MAINTENANCE

Your decision to select Stylam Laminate will bring you years of quality performance. Everyday cleaning of our products is as simple as a quick wipe with a damp sponge. All resist muddy fingerprints, coffee spills and so much more.

Please read and follow the recommended care and cleaning procedures.

ROUTINE CARE

To clean the surface, use a damp cloth or sponge and mild soap or detergent. Rinse thoroughly with warm water and wipe dry.

Difficult stains such as coffee or tea can be removed using a mild household cleaner and soft bristled brush, repeating as necessary.

If a stain persists, use a paste of baking soda and water and apply with a soft bristled brush. Light scrubbing for 10 to 20 strokes should remove most stains. Although baking soda is a low abrasive, excessive scrubbing or exerting too much force could damage the decorative surface, especially if it has a gloss finish.

Stubborn stains that resist any of the above cleaning methods may require the use of undiluted household bleach or nail polish remover. Apply the bleach or nail polish remover to the stains and let stand no longer than two minutes. Rinse thoroughly with water and wipe dry. These steps may be repeated if the stain appears to be going away and the colour of the laminate has not been affected.

WARNING: Prolonged exposure of the laminate surface to the bleach will cause discolouration.

Hot pans and heat-producing appliances (such as electric skillets), when set directly upon countertops, can damage the product's beauty. Always use a heat shield, hot pad or trivet.

CAUTION PLEASE!

Acidic or abrasive cleaner can damage laminate surface; do not use them. Drain cleaners containing lye will permanently damage any Stylam Laminate surface. If you spill drain cleaner, wipe it immediately and rinse several times with water.

Hair, textile and food dyes can cause permanent strains. If dye should happen to spill, wipe it immediately with dishwashing detergent or an all-purpose cleaner.

Never place pots or dishes directly from the oven or burner on an unprotected laminate surface; such extreme heat can cause cracking or blistering.

Do not work with oven cleaner on an unprotected countertop. Wipe spills away promptly and rinse several times with water.

Rust removers contain harsh chemicals which will quickly cause permanent damage. If a spill occurs, wipe off all residue immediately, wash thoroughly with soap water and rinse several times.

Steel wool and other abrasive pads will damage Stylam Laminate. Don't use them for cleaning and don't store steel wool pads on your countertop; the metal can rust and leave stains.

Toilet cleaners contain harsh chemical that cause permanent damage. If spills occur, wipe immediately, wash surface with soapy water and rinse several times.
