CROWN
The Lean Line

CROWN

The Lean Line

Crown – The Lean Line, our exquisite and cost effective range of laminates are available in a variety of designs, colours and textures in 0.8 mm thickness. The Lean Line is produced at our highly advanced manufacturing unit which guarantees a consistent and extreme level of quality.

Crown Laminate is produced by impregnating multiple layers of Kraft paper with resin. A layer of, carefully chosen, superior grade of décor paper is placed on top of the Kraft paper before pressing. The resulting sandwich is fused under heat and pressure. The fusion process creates strong bonds that contribute to The Lean Line's durability. The non-decorative side of the laminate is uniformly sanded by a highly advanced sanding machine, making it better suited for adhesion. Aggressive quality control checks and procedures are incorporated in the manufacturing process to ensure a high quality product.

The range is carefully designed to fulfill a huge range of applications from furniture to countertops to kitchen cabinets, walk-in wardrobe, bathroom drawers, office furniture, schools, hotels, living room panels, or greeting you at your door. Our Lean Line is the ideal interior solution. From abstracts to wood-grains, from linen to stone, from gloss surface to textures, from vertical to horizontal application, we have it all. Abrasion resistance, mild chemical resistance, diversity in finishes, easy clean nature of the product; makes our laminate a perfect choice for the surface decoration.

Product Data / Specification

Royal Crown Metal Series

Crown presents the Metal Foil series with variants to choose from different textures. These laminates are specifically designed for vertical interior applications and work brilliantly as high lighters.

Royal Crown Phenolic Backers

Phenolic Backers are produced for application to unexposed surfaces and therefore these backers are devoid of any design over the surface unlike general purpose laminates.

Royal Crown Fire Retardant Laminates

These Laminates are slowly gaining popularity due to its ability to retard and delay the spread of fire. These laminates can be used just about any where but are popular with schools and colleges.

Royal Crown Anti-sratic Laminates

These laminates are manufactured with special resin formulations to make sure they don't conduct static electricity and typical applications range from IT offices, call centres, laboratories, electronic industries and pharmaceutical laboratories.

Royal Crown Colour-Core Series

These laminates are typically used in areas where the laminates cross section is clearly visible and therefore the cross section and the design over the surface have the same colour.

Royal Crown Chemical Resistant Laminates

These laminates have special additives and protective surface film that make them spot on for usage in laboratories, clinics and other pharmaceutical areas where interaction with chemical is a day to day affair.

Royal Crown Post forming Laminates

Post Forming grade Laminates are typically used in both vertical and horizontal applications and in interiors, where the laminate is required to form or roll over different radius over the surface of the substrate.

Royal Crown Compact Laminates

This Compact solid surface is manufactured from special phenolic resins. Due to the strength of compact laminate, it has properties of dimensional stability, water and weather resistance. The usage is usually in School Benches, Toilet Cubicles, Kitchen Platforms, Wall Panelling and any other applications where load bearing is requested.

Royal Crown Chalk/Marker Laminates

Crown presents Write-on Laminates which constitute of Marker and Chalk Grade Laminates. Usage ranges any where from schools, Colleges to offices and other work places.

Maintenance

Clean with soft moist cloth with mild soap solution of household detergent. Cleaner should not be used. Pearl colours are recommended for vertical applications.

Note

Samples pasted are indicative of colour, pattern and finish. Not actual thickness.

Disclaimer

Customers are advised to reconfirm laminate colour & Finish. Our liability does not include claims arising out of sample chip pasting error.

Warranty

Royal crown laminates recommends product to be inspected before installation. Our liability will be limited to the extent of cost of the product only.
