UNICore

SOLID COLOR LAMINATE

UNICore with its solid colour throughout is ideal for use in high traffic areas, offering vast potential for innovative and stylish interiors in residential & commercial application such as counters, reception desks and furniture can be enhanced with special inlay effects and sharp edging details.

UNICore has a thorough and consistent Decor paper which means that when the laminate loses the top layer, a similar layer of color below the original layer takes its place.

The continuous colour eliminates the dark lines associated with conventional laminate edges and allows chamfered edges on tops.
