Fino Roccia

Cladding your Building and Walling the Forester's Way!

Enhance your designed interiors with texture and depth that speaks of your demeanour. Our natural stone walling materials provide more rugged exteriors to give a rustic look enhancing designed interiors. You can now give your office sit-out, patio or house a look of a natural setting like a garden or a forest. These layers work as shock and sound absorbers.

Fino Roccia premium stone veneer options offer you a variety of key products suitable for both outdoor and indoor design purpose. A layer of a slate can enhance your interiors treat it as garden and landscape projects. These products protect and enhance any well designed space by blending smoothly with boundaries offering earthy look to the spaces.

Fino Roccia is a stone veneer with a real stone surface. Our method makes it possible to attain many very thin slate slabs from some of the worlds' most beautiful slate blocks.

Each slab is one of a kind keeping the feel and optics of a regular slate slab. The properties of real slate on the stone side combined with unbelievable flexibility and the light weight of the back make it possible to do the most amazing projects. Regardless if used for building furniture, as a wall or floor covering, Fino Roccia has almost no limits.
