Fluted **Wood** Panels with Extraordinary Surface Finishes

NOT PVC / CHARCOAL / WPC

TIMBER

MARBLE

COLORS

European architect-grade product from the house of

vivre PANELS

SPECIFICATIONS

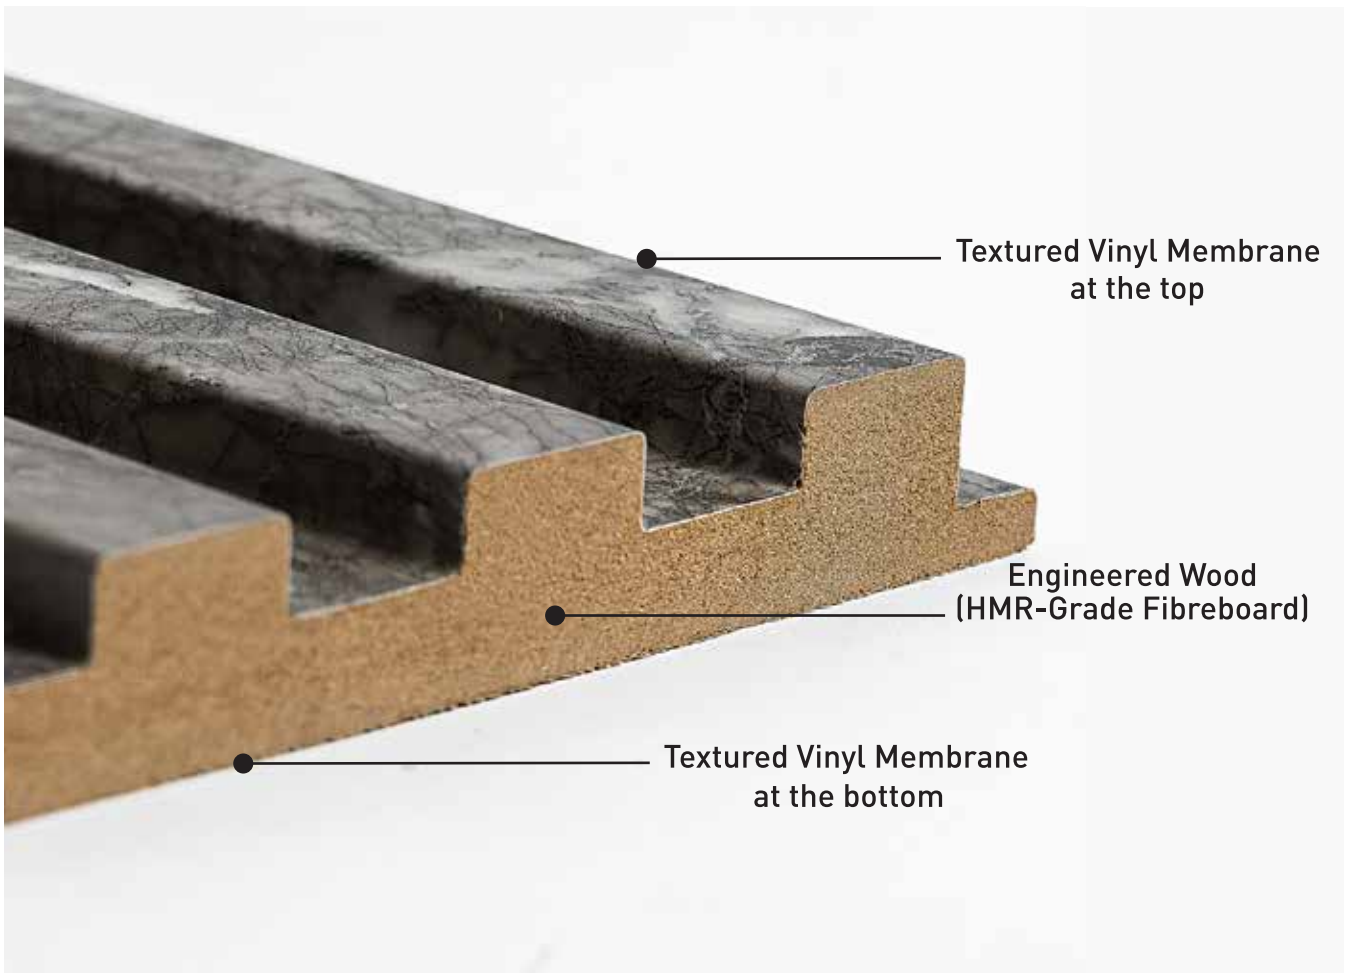

CORE: Engineered Wood (HMR-Grade Fibreboard)

FINISH: Textured Poly Vinyl Membrane

HEIGHT: 9 ft (2750 mm)

WIDTH: 121 mm (4.75 inches)

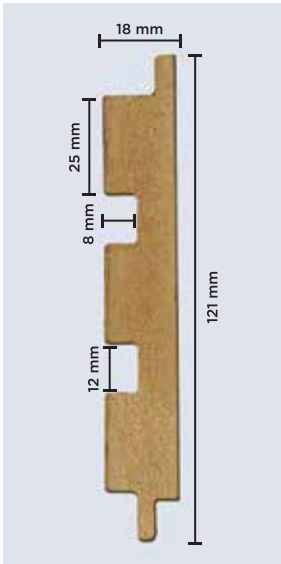

THICKNESS: 18 mm (3/4th inch)

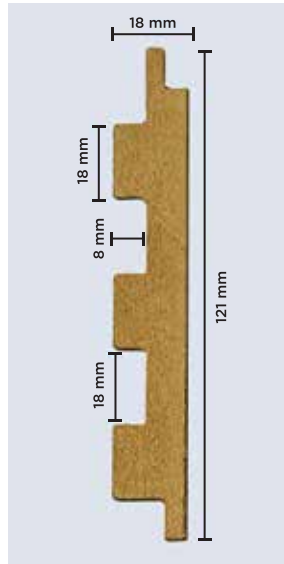

MANUFACTURING PROCESS

- Refining raw wood fibres for quality.
- Gluing, pressing & calibrating into uniform panels.
- Routing wooden panels into desired designs.
- Applying textured Poly Vinyl membrane on top.

A large log is being processed in a sawmill. The log is positioned horizontally, and a large metal blade is visible above it, cutting through the wood. A thick plume of sawdust is being ejected from the cut, filling the air. The background shows a dense forest of green trees. The scene is captured in a close-up, slightly low-angle shot, emphasizing the scale of the machinery and the volume of sawdust.

PANELS

2050 - TWO FLUTES
208 Sahara Noir

A high-angle, wide shot of a massive open-pit mine. The mine is characterized by deep, terraced levels of dark, rocky earth. A winding dirt road cuts through the lower levels, with a few large yellow and red mining trucks visible. In the foreground, a large, dark, textured rock formation is out of focus, framing the bottom left and bottom right of the image. The overall scene is industrial and rugged.

LMBR - SPIRALS
062 Metallic Gold

A fashion design studio with a mannequin, a sewing machine, and a person working at a table. The scene is dimly lit, with a large window on the left showing a view of buildings. The floor is made of dark wood. The text "LEATHER PROFILES" is overlaid in the center in a white, serif font, with a gold horizontal bar behind it.

INSTALLATION

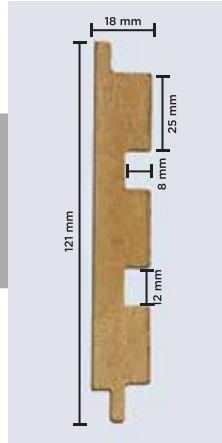

- Panel the wall with either aluminum channels or plywood as the base
- Fixing the panel: Drill screws on the lower side of the 1st panel at intermittent distances
- Overlap the upper side of the 2nd panel on the 1st panel
- Again drill the screws on the lower side of the 2nd panel
- As we repeat the process, screws are hidden & we achieve perfectly consistent panelling
